## Pastors and Church Leaders

Help those you care about to break free from the pain their adult children are causing.

As you most likely know, parents and grandparents around the country are struggling emotionally, spiritually and financially—living in chaos from one crisis to another concerning the choices being made (or not made) by their adult children.

Countless parents and grandparents live from drama to drama, making their own choices based on wanting desperately to help their adult children, and yet their repeated attempts to help have not brought the expected results. The vicious cycle of parental enabling has reached epidemic proportion with catastrophic consequences. *This is not how God wants us to live.*

You know the stories. You've heard all about the ongoing drama more than once. You know something must change...and it's not just the adult child. How do you help struggling parents to understand?

Help those you minister to find **S.A.N.I.T.Y.** in an otherwise insane situation. Help those you care about to understand the difference between helping and enabling. Help parents and grandparents to gain hope, healing and freedom from the bondage that has held them prisoner for far too long.
